

Warranty for 80kWh photovoltaic cabinet used at airports

Warranty
10 years

LiFePO₄

Intelligent BMS

Wide Temp:
-20°C to 55°C

Overview

This guide will explore the most common warranty issues in PV + storage cabinets, what causes them, and how to prevent or resolve them before they escalate.

What's Inside a Typical PV + Storage Cabinet A standard cabinet may include:.

The Federal Aviation Administration (FAA) published a final policy aimed at ensuring that airport solar projects don't create hazardous glare. The policy requires airports to measure the visual impact of such projects on pilots and air traffic control personnel. The policy applies to proposed solar. This report is available at no cost from the National Renewable Energy Laboratory (NREL) at www.nrel.gov/transportation/airport-solar-glare.

Our PV Warranty Insurance is straightforward and effective: manufacturers protect their ability to pay excessive warranty claims on modules for a period of 25 years (up to 30 years for glass-glass).
