Solar priority vs SBU

From my experience with various inverters that have SOL mode, you need to pay attention to the wording in the manual: Your manual states that when solar is available, it will be used along ...

[What is the difference between SBU and Sol mode?](#)

SBU and SOL mode refer to different operating modes primarily found in solar inverters, particularly those used in off-grid or hybrid solar power systems. They dictate how the inverter prioritizes power ...

New to solar, need advice.

SBU means solar first, if solar is not enough solar plus battery if both are not enough then it jumps to utility. Click to expand I put it on solar first now, as that also uses battery.

Sigma Overview

The SBU mode prioritizes solar energy. SBU: "S" for solar, "B" for battery, "U" for utility. - When solar panels are connected and sun light is sufficient, inverter will convert solar energy via integrated MPPT ...
