

What does the castries site cabinet battery cabinet contain

Overview

The cabinet houses the batteries during charging while an integral fan keeps the compartment cool to prevent overheating. Should a battery fail, the cabinet contains the fire and various other features react to also contain the toxic and flammable products of. Thankfully, innovations by Justrite in li ion battery storage are offering consumers and businesses a fire- and explosion-resistant battery cabinet in which to safely charge their li ion batteries. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. NFPA 70E ®, Standard for Electrical Safety in the Workplace®, Chapter 3 covers special electrical equipment in the workplace and modifies the general requirements of Chapter 1.
