

# What is the tariff for energy storage batteries in Mauritius

## Overview

---

Where applicable, Customs duty is levied on the transaction value of the goods (the price actually paid for them). Value Added Tax (VAT) of 15 percent is then calculated on the duty inclusive value. BATTERY ENERGY STORAGE SYSTEM (BESS): SUPPORTING A LOW-CARBON FUTURE As Mauritius transitions to a low-carbon economy, the CEB is actively integrating Battery Energy Storage Systems (BESS) to manage fluctuations in renewable energy sources like solar and wind. In its 2021-2022 budget speech, the government announced plans to increase the use of renewable sources of energy for electricity generation. Summary: Mauritius is embracing advanced TPU material-based energy storage batteries to optimize renewable energy integration. This article explores how these durable, weather-resistant batteries address island-specific energy challenges while aligning with global sustainability goals. PO Box 134 Rue du Savoir, Ebene Cybercity Tel: +230 404-2000 ceb@ceb. The large-scale battery energy storage system (BESS), provided by German engineering company Siemens, was inaugurated on the.

## What is the tariff for energy storage batteries in Mauritius

### [Mauritius Energy Storage Solutions: TPU Material Batteries for](#)

Summary: Mauritius is embracing advanced TPU material-based energy storage batteries to optimize renewable energy integration. This article explores how these durable, weather-resistant batteries ...

### **CEB: RATES APPLICABLE**

The Central Electricity Board (CEB) is a parastatal body wholly owned by the Government of Mauritius and operating under the aegis of the Ministry of Energy and Public Utilities.

### **Customs Charges**

Where applicable, Customs duty is levied on the transaction value of the goods (the price actually paid for them). Value Added Tax (VAT) of 15 percent is then calculated on the duty inclusive value.

### [Addressing Tariffs and Trade in Energy Storage Projects](#)

Tariffs on Chinese-origin lithium-ion non-EV batteries are scheduled to increase to 25% effective January 1, 2026. Otherwise, batteries of non-Chinese origin storage batteries have not been ...

### Tariff Information

Tariff Information Integrated Tariff as at 15 December 2025 Correlation Tables for Harmonised System for the Classification of goods - Version 2017 Table 1 Table 2 Practice Notes on Classification ...

### [Mauritius Energy Storage Battery Production Opportunities and Trends](#)

Mauritius' energy storage battery production sector is poised for growth, driven by renewable adoption and innovative tech. From AI-optimized systems to climate-resilient designs, the island offers ...

### Mauritius

Summary: Mauritius is embracing advanced TPU material-based energy storage batteries to optimize renewable energy integration. This article explores how these durable, weather-resistant batteries ...

### Mauritius

Battery Storage: Mauritius aims to increase the share of renewable energy sources in its energy mix, which leads to fluctuating power injection. The installation of Battery Energy Storage ...

### **CEB: ENERGY SCHEMES**

Kindly note that the schemes are being updated.

### [Mauritius energy minister inaugurates 20MW BESS](#)

The government of Mauritius has welcomed the commissioning of a 20MW battery storage project which will provide frequency regulation to the East African island nation's grid.

### **BATTERY ENERGY STORAGE SYSTEM**

As Mauritius transitions to a low-carbon economy, the CEB is actively integrating Battery Energy Storage Systems (BESS) to manage fluctuations in renewable energy sources like solar and wind.
