

Yebukou Solar Power Generation

Overview

The Yabucoa Project is FlexGen's second in Puerto Rico and builds on a rapidly growing fleet of energy storage assets monitored by their EMS platform throughout the United States for investor-owned utilities, municipal and cooperative utilities and independent power producers. Yabucoa Solar will lower clean energy rates while providing clean power and resilient energy storage to communities in southeast Puerto Rico. The Department of Energy Loan Programs Office (LPO) announced a conditional commitment for a loan guarantee of up to \$133. Located in Salinas, Puerto Rico, Horizon was built between 2013 and 2015. With a \$40 million investment, it provided jobs to 210 locals during construction. Read more about Solar capacity ratings. To access additional data, including an interactive map of. Infinigen Yabucoa Solar PV Park is a 32MW solar PV power project. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage.
